Dear St Mark Families:

I wanted to share with you that our school is now participating in a new recycling program: **THE DREAM MACHINE RECYCLE RALLY**. This program allows our school earn rewards all while helping to save the planet and supporting post 9-11 disabled US veterans.

The rewards will generate school supplies and many more items needed in our school.

We need your help; we are collecting empty plastic bottles and cans. The bottles and cans must have a barcode because we are using a special scanner, each item represent 1 point to our school. As many points we generated more rewards.

We will placed bin-collectors for the bottles in the cafeteria and in our main office, I am asking you to bring your home recycle bottles to our school in order to help this project grow.

Sincerely,

David F. Espinoza
8th Grade
Environmental Club

P.S: Please remember that we continue our JUICE POUCHES RECYCLE PROGRAM WITH TERRACYCLE, the bin collector is located in our cafeteria
